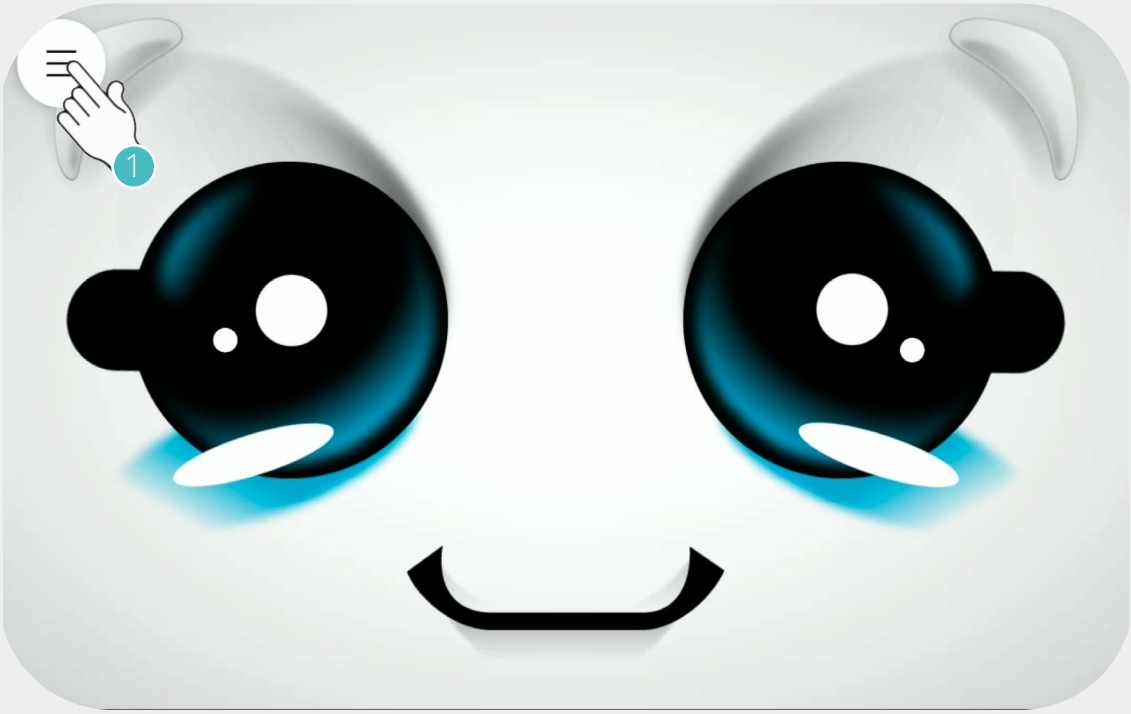
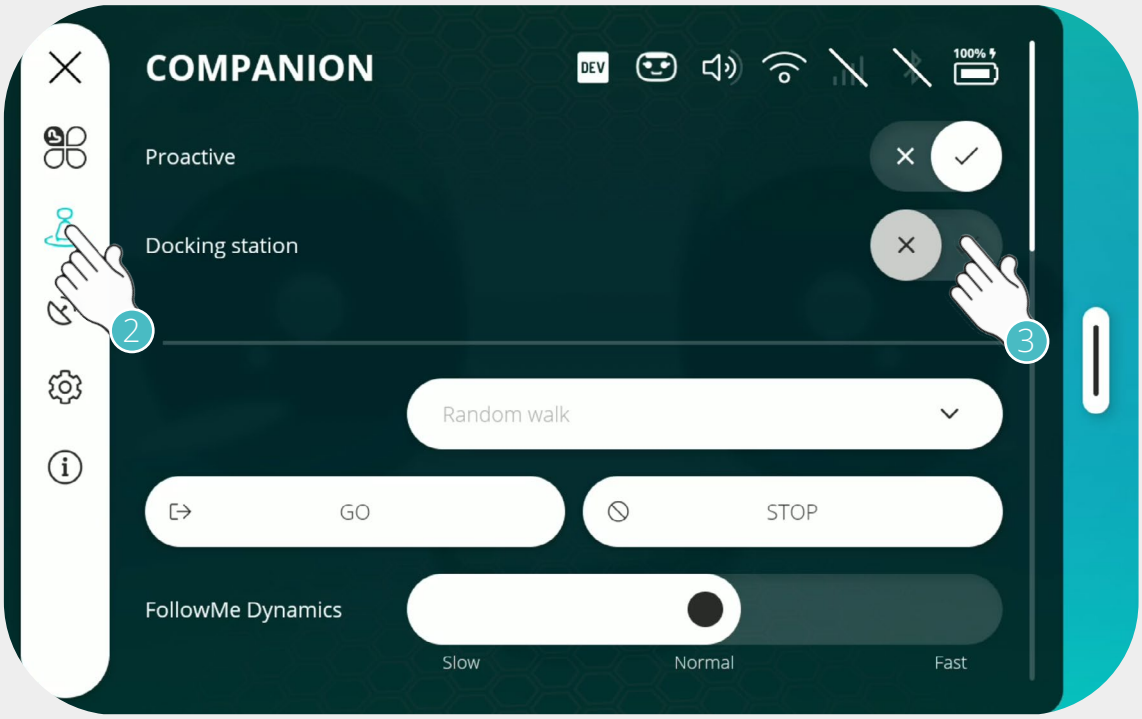
4 - STATION CONNECTION

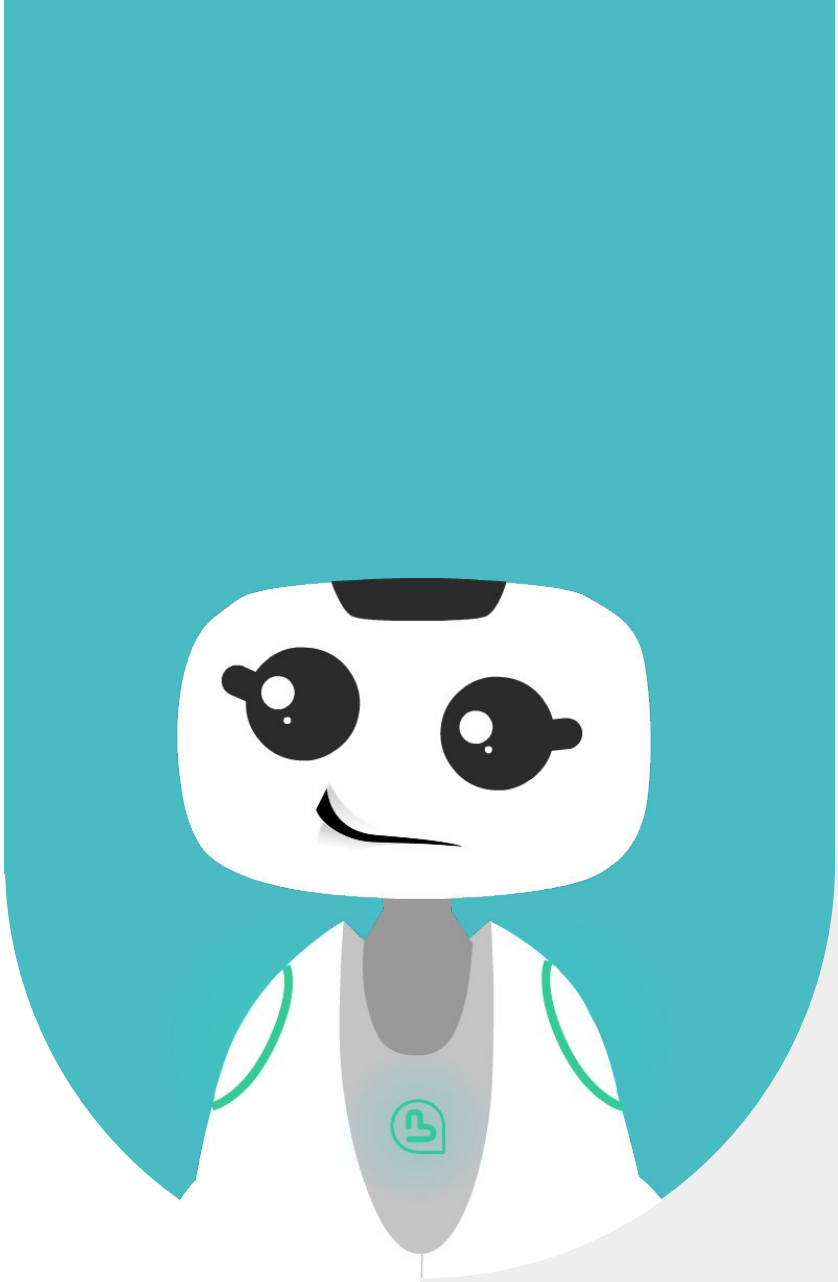
Connect the station to power supply supplied with the robot

5 - BUDDY MENU CONFIGURATION

1 - Access the Buddy menu
2 - Go to the «Companion» tab
3 - Activate the «Base station» button







6 - RELOADING PROCESS

6.1 - TRIGGERING THE RELOADING PROCESS

1 - Battery level down to 20%

The robot automatically launches the search mission for the recharge

2 - The user says one of the following voice commands :

«GO TO THE DOCKING STATION»,
«GO TO THE CHARGING STATION»,
«GO (RECHARGE | RECHARGING)»,
«GO (CHARGE | CHARGING)»,
«GO HOME»,
«GO TO YOUR HOUSE»

6.2 - EXIT FROM RECHARGING PROCESS

1 - Battery level reaches 100%. The robot automatically exits the Docking station.

2 - If battery level is less than 100% Give the Voice Command « Stop charging »

6.2 - WARNING

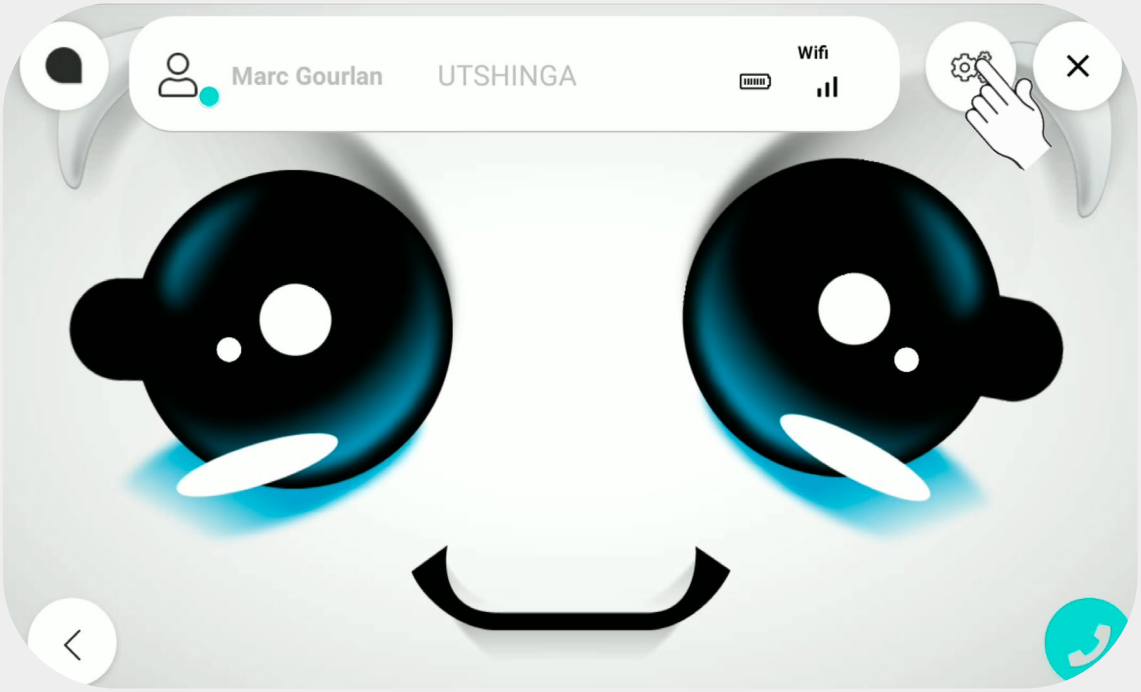
Charging station markers must remain always visible. The robot must be less than 4m from the Docking, with unobstructed access.
The area between the robot and the recharging station must be clear of obstacles, chair legs and table legs.
The parking area must be greater (height and width) than the robot dimension.

7 - DOCK THE ROBOT FROM MYBUDDYAPP

7.1 - ON TELEBUDDY

Double-check the setting:
Companion Menu -> Charging Station -> Enabled

Launch TeleBuddy (V1.2.18 or higher)



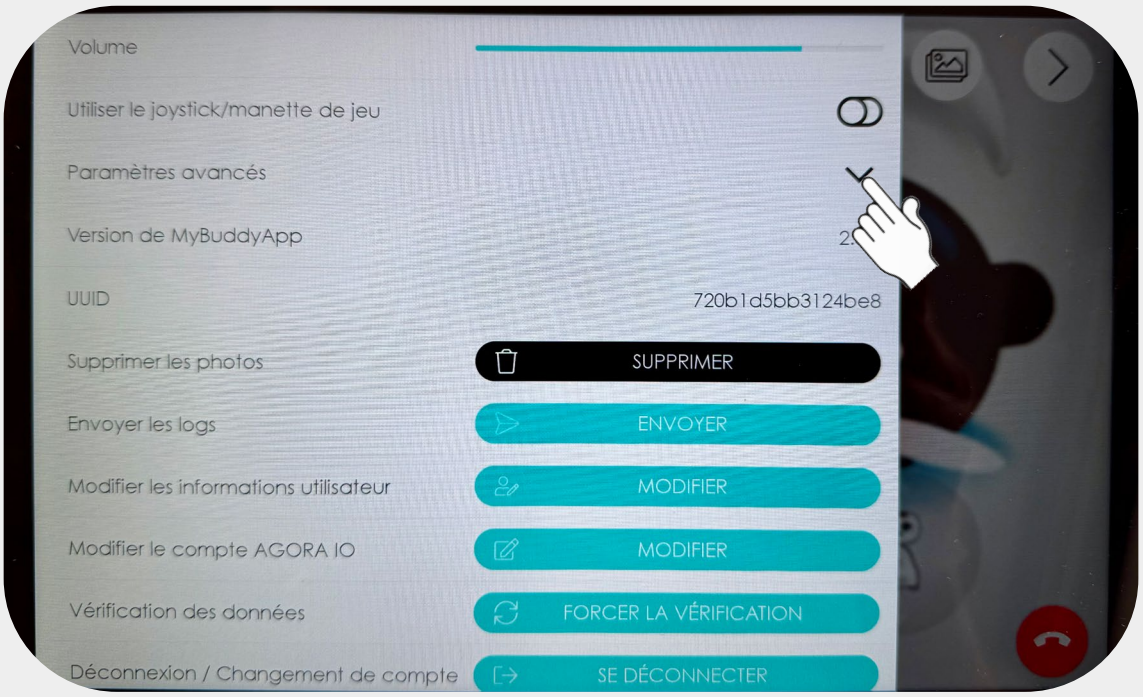
Enable automatic unhooking

7.2 - ON MYBUDDYAPP

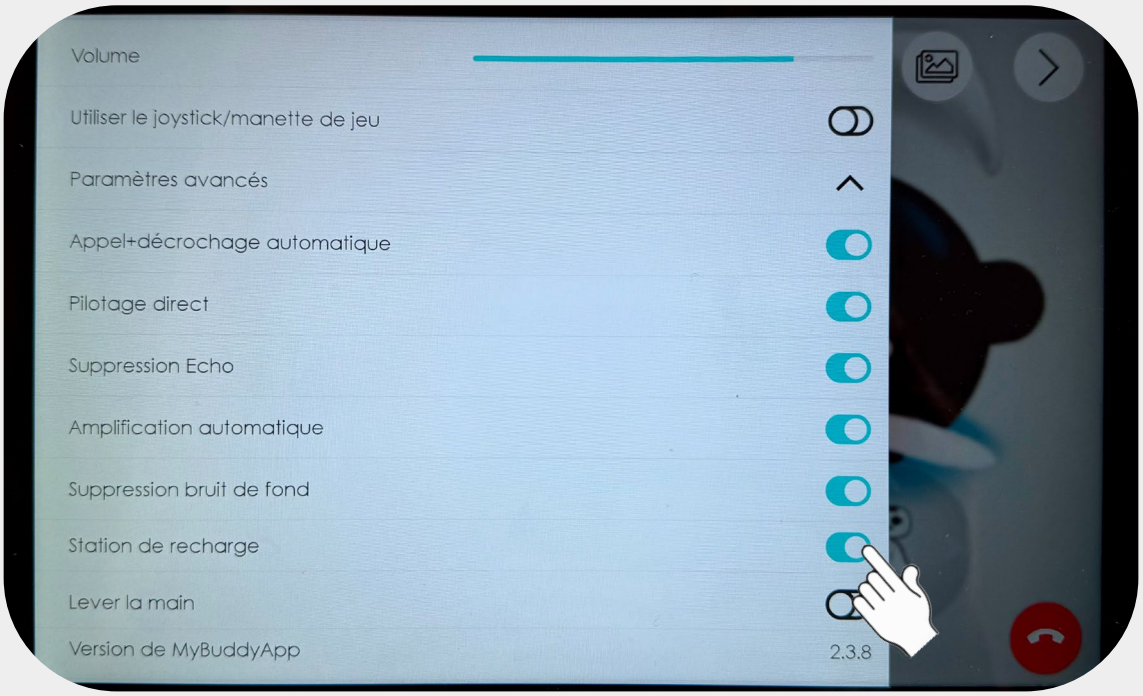
Download MyBuddyApp

Launch MyBuddyApp on your Tablet (V2.3.8 or higher)

Go to the “Settings” menu and select “Advanced settings”



Activate “Charging Station”



Drive the robot to position it in front of the Charging Station.
You must be able to see at least one of the Docking Station's QR codes.

Press the "Docking" button in the MyBuddyApp Menu

This screen appears during the parking process.
Once completed, Buddy's video will be reactivated.
