Team Chat Buddy

User Guide EN V1.0

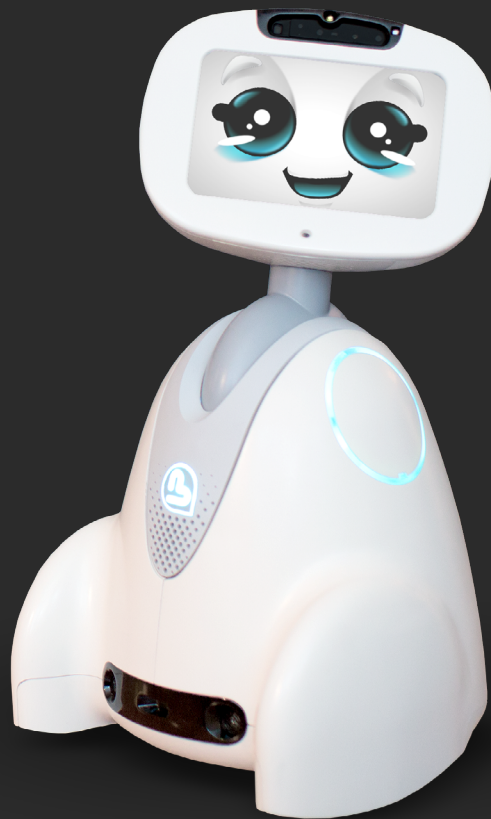

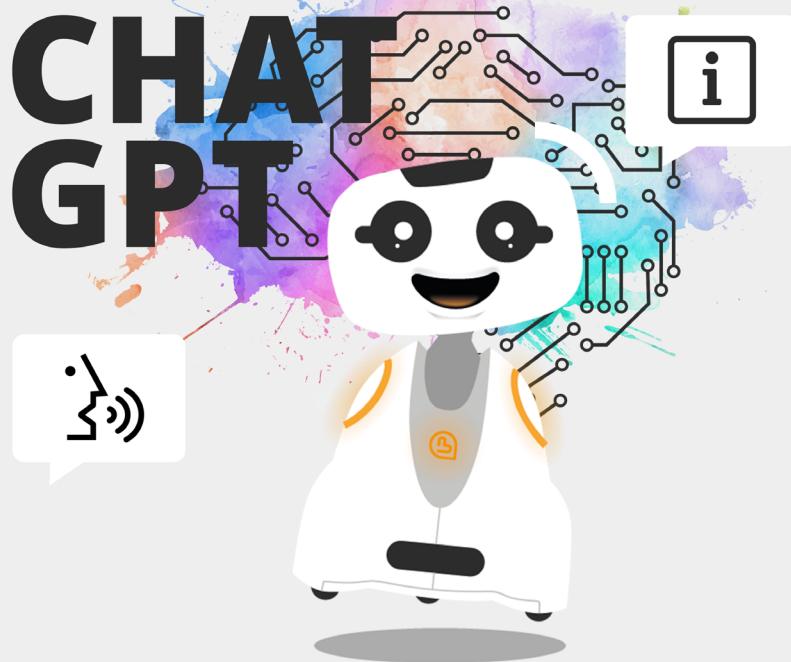

Buddy®

The Emotional Robot
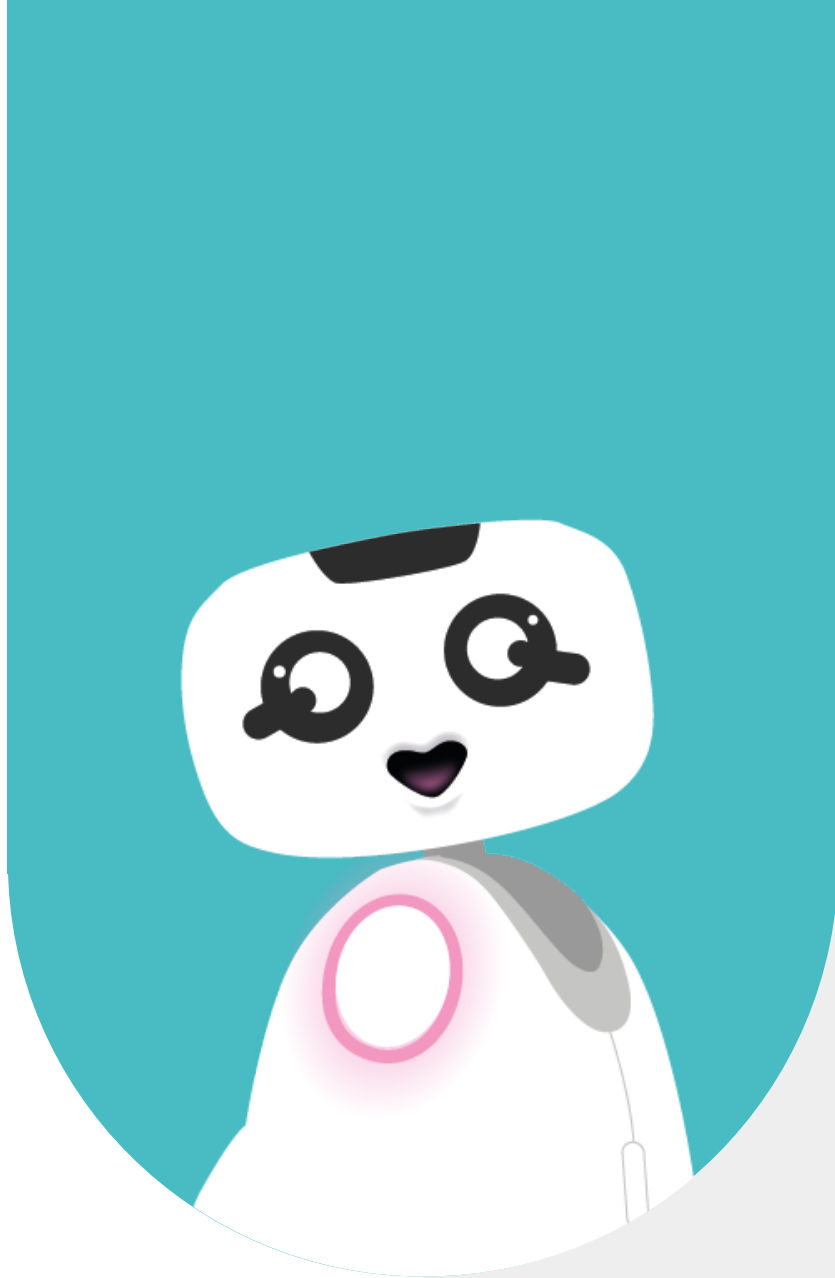

1 - SUMMARY

CHAT GPT

2 - ABOUT

TeamChatBuddy is a ChatBot aggregator integrating ChatGPT, Buddy's emotions, a CustomGPT (functionality which allows you to create and personalize AI models with ChatGPT), tracking, engagement, «follow-me», walk, movement controls.

By integrating ChatGPT's artificial intelligence, this application allows Buddy to lead the conversation in a natural way, while responding specifically to questions on various topics very quickly, taking into account contexts and wording.

Before releasing the app to everyone, we first want to test it with a group of curious users to make sure it works well and that you like it.
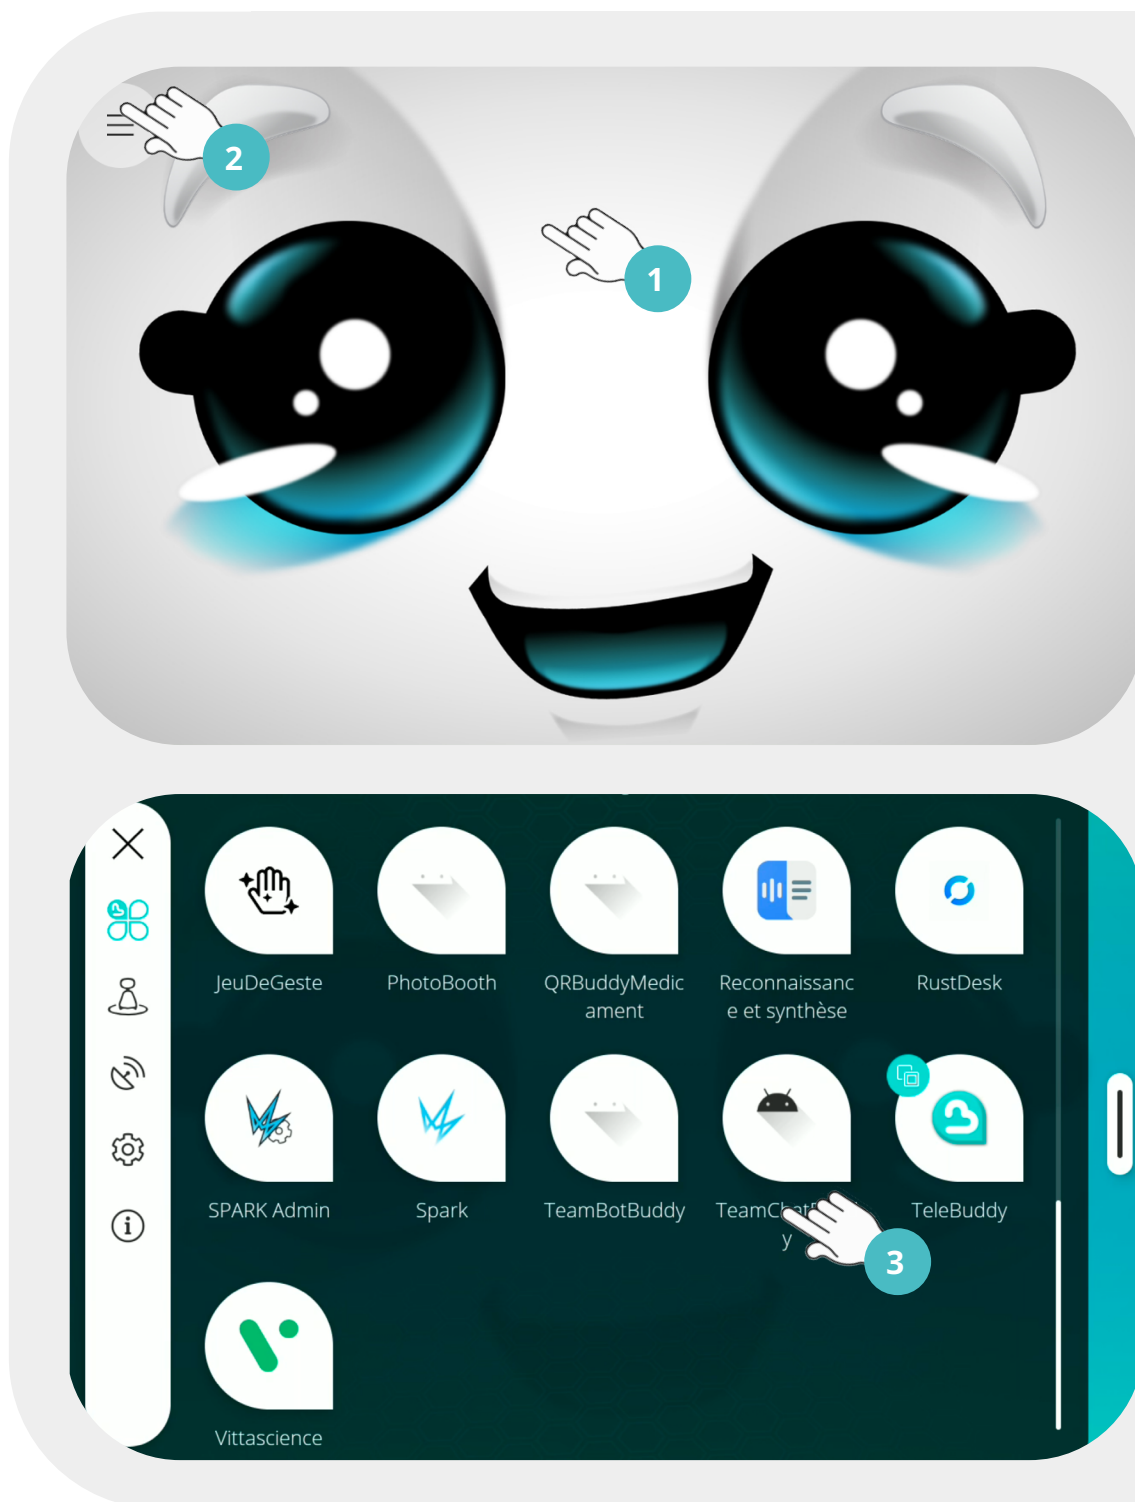

This test version aims to continue co-creating the application with you!
